

## External carotid artery terminal branches

→ Superficial temporal (anterior br; posterior br)

→ Transverse facial

→ Maxillary

→ Part 1: behind ramus of mandible,

lateral to lateral pterygoid m

→ Anterior tympanic

→ Auricular

→ Inferior alveolar

→ Middle meningeal

→ (Accessory middle meningeal)

→ Part 2: associated with lateral pterygoid m

(either anterior or posterior to it)

→ Masseteric br

→ Medial pterygoid br

→ Lateral pterygoid br

→ Deep temporal (anterior br; posterior br)

→ Buccal

→ Part 3: medial to lateral pterygoid m

→ Posterior superior alveolar (x2 br)

→ Descending palatine

→ Greater palatine

→ Lesser palatine

→ Infraorbital

→ Middle superior alveolar

→ Anterior superior alveolar

→ Sphenopalatine

→ Posterior nasal br

→ Posterior septal br
